## OTO-TRP2 COMBAT

TRP2 - Combat is a small, light, tracked Unmanned Ground Vehicle (UGV) platform for use in tactical situations where the human presence is not advisable. TRP2 - Combat can be disassembled in light-weight independent parts, in order to be easily transported by soldiers on the field, ready for operation in few minutes.

TRP-2 - Combat is equipped with:

- Light machine gun FN MINIMI 5,56 mm or equivalent
- Grenade launcher (40mm) different light machine guns may be installed upon request.

A single soldier can remotely-operate TRP2 - Combat by a proper Operator Control Unit (OCU).

The OCU is a modular system composed of a joy pad, communication box and ruggedized Personal Computer. It is integrated with the four cameras installed on TRP2 -Combat; the cameras include night vision capability, Pan-Tilt-Zoom (PTZ) and stabilization option in order to provide best Situational Awareness.

TRP2 - Combat is electric-powered and can achieve a maximum speed of 15km/h.

# OTO-TRP2 COMBAT

Maximum weight	100 kg
Length (platform)	1150 mm
Width (platform)	600 mm
Overall height (platform)	1200 mm
Propulsion	Brushless Motors
Batteries	Li-Ion
Maximum speed	15 Km/h
Endurance	over 4 hours
